

June 7, 2018

Dear Stakeholder,

On the US-91 repaving project from 1000 North in Logan to 900 South in Smithfield, crews will reduce the highway to one lane in each direction from 9 p.m. to 7 a.m. Sunday through Thursday for asphalt removal and repaving. Work on pedestrian accesses continues. The intersection of 1600 North and Main Street is scheduled to remain open until further notice. During the next two weeks, crews will continue removing asphalt and placing new asphalt. During paving operations, the project team is asking business owners not water the grass areas along Main Street for 48 hours prior to paving work being performed at your location. The project team will notify businesses in advance. If you would like assistance turning your sprinklers off, please contact us, provide your information, and the construction contractor will do it for you.

Motorists should expect narrowed lanes and moderate travel delays. Access to area businesses will remain open during the day. This work will continue through July 2018. Contact the project hotline, 877-495-4240 or email us91logan@utah.gov for more information.

Best,

Breanne Harris
