

# Smithfield PARKS & RECREATION

We are excited to announce plans to construct an 8,000 sq ft skate park at Central Park located in downtown Smithfield at 100 North and 100 West. Known as Utah's Health City, we are continually striving to offer outstanding facilities and programs for our youth to get them outside and active. This project will help to reach a current demographic that has limited opportunity in the city as well as the entire valley. As we strive to fulfill our mission of providing a variety of quality programs, activities and facilities for our great community, we would invite you to consider becoming a sponsor of this project. We believe the impact of this facility along with many other improvements to the park will extend beyond the users, and provide a significant economic boost to our local businesses. 100% of the money raised will go towards enhancing the skate park.

Below you will find several sponsorship packages available for this project; please review and let us know if you're interested in helping us make this project a reality.
