

August 24, 2018

Dear Stakeholder,

Below is a summary of the upcoming work on US-91 from 1000 North in Logan to 900 South in Smithfield.

Roadway Work

Minor paving work continues. The intersections of 4200 North and 4400 North are scheduled to reopen as early as Tuesday, August 28. Concrete work will continue as crews remove and replace various sections of curb and gutter, and driveways. Crews will continue placing new concrete around manholes and other utility accesses in the roadway. Steel plates will be set over the concrete. Please slow down and drive across the plates and avoid swerving around them.

Main Street will be periodically reduced to one lane in each direction from 9 p.m. to 7 a.m. Motorists should expect moderate travel delays. Sign installation and clean-up of loose asphalt on side streets, SR-165, and Main Street will continue.

This work will continue through mid-September 2018. Contact the project hotline at 877-495-4240 or email us91logan@utah.gov for more information.
