ORDINANCE 20-03

WHEREAS, the City Council of Smithfield City, Cache County, Utah, passed and adopted the Smithfield Municipal Code on November 11, 2015; and

WHEREAS, the City Council has determined there is a need to update, repeal, amend and/or modify certain provisions contained in the referenced Municipal Code;

NOW, THEREFORE, the City Council of Smithfield City, Utah hereby adopts, passes and publishes the following:

BE IT ORDAINED BY THE CITY COUNCIL OF SMITHFIELD CITY, CACHE COUNTY, UTAH, AS FOLLOWS:

1. The following sections shall be amended as indicated. Those portions which are struck out shall be deleted and those that are highlighted in yellow shall be added.

***NOTE: Drawings are attached at the end of this Ordinance.***

5.1 GENERAL

L. Backfill material shall be tamped in layers around the pipe and to a sufficient height above the pipe to adequately support and protect the pipe. The material and backfill zones shall be as specified by the standards referenced in Subsection (1), above. As a minimum: for plastic pipe, backfill material with a maximum particle size of ¾ inch shall be used to surround the pipe; and for ductile iron pipe, backfill material shall contain no stones larger than two (2) inches.

J. Under no circumstances shall the pipe or accessories be dropped into the trench.

K. The open ends of all pipelines under construction shall be covered and effectively sealed at the end of the day’s work.

L. Above Water Crossings: The pipe shall be adequately supported and anchored, protected from damage and freezing, and accessible for repair or replacement.

M. Underwater Crossings:

1. A minimum cover of two (2) feet or greater, as local conditions may dictate, shall
be provided over the pipe.

2. When crossing water courses that are greater than fifteen (15) feet in width, the following shall be provided:
   (a) Pipe with joints shall be of special construction, having restrained joints for joints within the surface water course and flexible restrained joints at both edges of the water course;
   (b) Isolating valves shall be provided on both sides of the water crossing at locations not subject to high ground water or flooding, so that the section can be isolated for testing or repair.
   (c) A means shall be provided, such as a sampling tap, not subject to flooding, to allow for representative water quality testing on the upstream and downstream side of the crossing.
   (d) A means shall be provided to pressure test the underground water crossing pipe.

2. Should any section, clause, or provision of this Ordinance be declared by a court of competent jurisdiction to be invalid, in whole or in part, the same shall not affect the validity of the Ordinance as whole, or any other part thereof.

3. All ordinances, and the chapter, clauses, sections, or parts thereof in conflict with provisions of this ordinance are hereby repealed, but only insofar as is specifically provided for herein.

4. This ordinance shall become effective after the required public hearing and upon its posting as required by law.

THIS ORDINANCE shall be attached as an amendment to the Smithfield Municipal Code above referred to.

Approved and signed this 26th day of February, 2020
