## **Submittal Check List**

Check each of the following items for compliance with adopted City Standards, Titles, General Plans and Ordinances. You will be notified of any missing/incomplete items on the checklist. If there are other items/information you wish for the City to take into consideration when reviewing this Final Plat Application, please attach additional sheets describing that items/information.

development.  14. Location, width and names of all existing streets within two hundred feet (200') of the subdivision  15. Location of all public ways, railroad and utility rights of way, parks, and other public spaces, permanent buildin and structures, and houses or permanent easements  16. Location of Section and corporation lines.  17. Location of all wells, proposed, active and abandoned, and of all reservoirs within the tract and to a distance of at least one hundred feet (100') beyond the tract boundaries.  18. Existing sewers, water mains, irrigation lines, culverts or other underground facilities within the tract and to a distance of at least one hundred (100') beyond the tract boundaries, indicating pipe sizes, grades, manholes a exact location  19. Existing ditches, canals, natural; drainage channels and open waterways an proposed realignments.  20. Boundary lines of adjacent tracts of unsubdivided land, showing ownership where possible.  21. Contour lines at vertical intervals of not more than two feet (2') excepting in mountainous or otherwise steep areas where a more practical interval would be warranted.  22. Where applicable, location of the 100-year floodplain as determined by the federal emergency management agency (FEMA).  Proposed Plan  23. The layout of streets (designated by actual or proposed names and numbers), showing location, widths and other dimensions of proposed streets and alleys  24. Layout, numbers, and typical dimensions of lots	1.	Electronic version and one (1) 24" X 36" and one (1) 11" X 17" hard copy of the Preliminary Plat (if requested)			
Plat Details  3. Plat drawn to a scale of not less than T*=100'. 4. North Arrow. 5. Plat drawn with the top of the sheet being either north or east. 6. Names and addresses of the owner, subdivider if other than the owner, and engineer or designer of the subdivision. 7. Location of subdivision including the address and the section, township and range. 8. All lines, dimensions and markings in waterproof black ink (No adhesive labels). 9. Requested name for the subdivision. 10. Date of Preparation Existing Conditions 11. Location of the nearest legal monument 12. The boundary of the proposed subdivision and the acreage included 13. Depiction of all property under the control of the subdivider, even though only a portion may be considered for development. 14. Location, width and names of all existing streets within two hundred feet (200') of the subdivision 15. Location of all public ways, railroad and utility rights of way, parks, and other public spaces, permanent buildin and structures, and houses or permanent easements 16. Location of Section and corporation lines. 17. Location of 3el wells, proposed, active and abandoned, and of all reservoirs within the tract and to a distance o at least one hundred feet (100') beyond the tract boundaries. 18. Existing sewers, water mains, irrigation lines, culverts or other underground facilities within the tract and to a distance of at least one hundred (100') beyond the tract boundaries. 19. Existing diches, canals, natural; drainage channels and open waterways an proposed realignments. 20. Boundary lines of adjacent tracts of unsubdivided land, showing ownership where possible. 21. Contour lines at vertical intervals of not more than two feet (2') excepting in mountainous or otherwise steep areas where a more practical intervals of not more than two feet (2') excepting in mountainous or otherwise steep areas where a more practical intervals of not more than two feet (2') excepting in mountainous or otherwise steep areas where a more practical intervals of not more than tw	2.				
3. Plet drawn to a scale of not less than 1"=100".  4. North Arrow.  5. Plat drawn with the top of the sheet being either north or east.  6. Names and addresses of the owner, subdivider if other than the owner, and engineer or designer of the subdivision.  7. Location of subdivision including the address and the section, township and range.  8. All lines, dimensions and markings in waterproof black ink (No adhesive labels).  9. Requested name for the subdivision.  10. Date of Preparation  Existing Conditions  11. Location of the nearest legal monument  12. The boundary of the proposed subdivision and the acreage included  13. Depiction of all property under the control of the subdivider, even though only a portion may be considered for development.  14. Location, width and names of all existing streets within two hundred feet (200") of the subdivision and structures, and houses or permanent easements  15. Location of all public ways, railroad and utility rights of way, parks, and other public spaces, permanent buildin and structures, and houses or permanent easements  16. Location of Section and corporation lines.  17. Location of Section and corporation lines.  18. Existing sewers, water mains, irrigation lines, culverts or other underground facilities within the tract and to a distance of at least one hundred feet (100") beyond the tract boundaries, indicating pipe sizes, grades, manholes a exact location  19. Existing ditches, canals, natural: drainage channels and open waterways an proposed realignments.  20. Boundary lines of adjacent tracts of unsubdivided land, showing ownership where possible.  21. Contour lines at vertical intervals of not more than two feet (2") excepting in mountainous or otherwise steep areas where a more practical intervals of not more than two feet (2") excepting in mountainous or otherwise steep areas where a more practical intervals of not more than two feet (2") excepting in mountainous or otherwise steep areas where a more practical intervals of not more than two feet (2") ex		· · · · · · · · · · · · · · · · · · ·			
4. North Arrow. 5. Plat drawn with the top of the sheet being either north or east. 6. Names and addresses of the owner, subdivider if other than the owner, and engineer or designer of the subdivision. 7. Location of subdivision including the address and the section, township and range. 8. All lines, dimensions and markings in waterproof black ink (No adhesive labels). 9. Requested name for the subdivision. 10. Date of Preparation Existing Conditions 11. Location of the nearest legal monument 12. The boundary of the proposed subdivision and the acreage included 13. Depiction of all property under the control of the subdivider, even though only a portion may be considered for development. 14. Location, width and names of all existing streets within two hundred feet (200°) of the subdivision 15. Location of all public ways, railroad and utility rights of way, parks, and other public spaces, permanent buildin and structures, and houses or permanent easements 16. Location of Section and corporation lines. 17. Location of all wells proposed, active and abandoned, and of all reservoirs within the tract and to a distance of at least one hundred feet (100°) beyond the tract boundaries. 18. Existing sewers, water mains, irrigation lines, culverts or other underground facilities within the tract and to a distance of at least one hundred (100°) beyond the tract boundaries, indicating pipe sizes, grades, manholes a exact location 19. Existing ditches, canals, natural; drainage channels and open waterways an proposed realignments. 20. Boundary lines of adjacent tracts of unsubdivided land, showing ownership where possible. 21. An adequate traffic report prepared by a qualified traffic engineer when required by the planning commission where necessary, copies of any agreements with adjacent property owners relevant to the proposed subdivision	13.	Depiction of all property under the control of the subdivider, even though only a portion may be considered for development.			
and structures, and houses or permanent easements  16. Location of Section and corporation lines.  17. Location of all wells, proposed, active and abandoned, and of all reservoirs within the tract and to a distance of at least one hundred feet (100') beyond the tract boundaries.  18. Existing sewers, water mains, irrigation lines, culverts or other underground facilities within the tract and to a distance of at least one hundred (100') beyond the tract boundaries, indicating pipe sizes, grades, manholes a exact location  19. Existing ditches, canals, natural; drainage channels and open waterways an proposed realignments.  20. Boundary lines of adjacent tracts of unsubdivided land, showing ownership where possible.  21. Contour lines at vertical intervals of not more than two feet (2') excepting in mountainous or otherwise steep areas where a more practical interval would be warranted.  22. Where applicable, location of the 100-year floodplain as determined by the federal emergency management agency (FEMA).  Proposed Plan  23. The layout of streets (designated by actual or proposed names and numbers), showing location, widths and other dimensions of proposed streets and alleys  24. Layout, numbers, and typical dimensions of lots  25. Parcels of land intended to be dedicated or temporarily reserved for public use or set aside for use of propert owners in the subdivision  26. Building setback line  27. Proposed easements for water, sewers, drainage, utility lines and other purposes  39. Tentative plan for culinary and secondary water systems  30. Tentative plan for culinary and secondary water systems  31. Tentative plan for culinary and secondary water systems  32. An adequate traffic report prepared by a qualified traffic engineer when required by the planning commission where necessary, copies of any agreements with adjacent property owners relevant to the proposed subdivision	14.	Location, width and names of all existing streets within two hundred feet (200') of the subdivision			
16. Location of Section and corporation lines.  17. Location of all wells, proposed, active and abandoned, and of all reservoirs within the tract and to a distance of at least one hundred feet (100') beyond the tract boundaries.  18. Existing sewers, water mains, irrigation lines, culverts or other underground facilities within the tract and to a distance of at least one hundred (100') beyond the tract boundaries, indicating pipe sizes, grades, manholes a exact location  19. Existing ditches, canals, natural; drainage channels and open waterways an proposed realignments.  20. Boundary lines of adjacent tracts of unsubdivided land, showing ownership where possible.  21. Contour lines at vertical intervals of not more than two feet (2') excepting in mountainous or otherwise steep areas where a more practical interval would be warranted.  22. Where applicable, location of the 100-year floodplain as determined by the federal emergency management agency (FEMA).  Proposed Plan  23. The layout of streets (designated by actual or proposed names and numbers), showing location, widths and other dimensions of proposed streets and alleys  24. Layout, numbers, and typical dimensions of lots  25. Parcels of land intended to be dedicated or temporarily reserved for public use or set aside for use of propert owners in the subdivision  26. Building setback line  27. Proposed easements for water, sewers, drainage, utility lines and other purposes  28. Typical street cross sections and preliminary street grades if required  29. Tentative plan to accommodate storm water  30. Tentative plan for culinary and secondary water systems  31. Tentative plan for sewer service  32. An adequate traffic report prepared by a qualified traffic engineer when required by the planning commission subdivision	15.	Location of all public ways, railroad and utility rights of way, parks, and other public spaces, permanent building
