<tr>
<td><strong>Hawthorn, Cockspur</strong></td>
<td>Branches have thorns though there are thornless varieties available. Fruit persists through late fall and into winter.</td>
<td>Smooth, glossy, dark green, red/yellow in fall.</td>
<td>25h x 25w</td>
<td>Fast</td>
<td>Rounded</td>
<td>3-8</td>
<td>Alkaline: High</td>
</tr>
<tr>
<td><strong>Hawthorn, Green</strong></td>
<td>Fruit persistent through winter. More disease resistant than other varieties. Hardy and adaptable tree.</td>
<td>Dark green, ovate, purple to red fall color.</td>
<td>20h x 20w</td>
<td>Medium</td>
<td>Rounded</td>
<td>4-8</td>
<td>Alkaline: High</td>
</tr>
<tr>
<td><strong>Juniper, Rocky Mountain</strong></td>
<td>Berry-like blue fruit. Dense, shrub like growing pattern makes the tree great for shaping into large hedges.</td>
<td>Scale-like, evergreen needles, blue-green color.</td>
<td>25h x 20w</td>
<td>Medium</td>
<td>Pyramidal</td>
<td>3-7</td>
<td>Alkaline: High</td>
</tr>
<tr>
<td><strong>Juniper, Utah</strong></td>
<td>Berry-like blue fruit. Can attract parasitic mistletoe. Often grows in a more shrub like form.</td>
<td>Scale-like, evergreen needles, blue-green color.</td>
<td>25h x 20w</td>
<td>Medium</td>
<td>Pyramidal</td>
<td>3-7</td>
<td>Alkaline: High</td>
</tr>
<tr>
<td><strong>Maple, Bigtooth</strong></td>
<td>Often grown as a large shrub due to the trees having a short trunk with dense, spreading branches. Susceptible to leaf scorch.</td>
<td>Green, 3-5 blunt lobes, bright orange to red fall color.</td>
<td>25h x 20w</td>
<td>Medium</td>
<td>Irregular</td>
<td>3-8</td>
<td>Alkaline: High</td>
</tr>
<tr>
<td><strong>Maple, Tatarian</strong></td>
<td>Also called the Hot Wings Maple. Bright red pairs of samaras cover the tree in late spring after blooming.</td>
<td>Toothed, bright-green, yellow to red/brown fall color.</td>
<td>15h x 20w</td>
<td>Medium</td>
<td>Irregular</td>
<td>3-8</td>
<td>Alkaline: High</td>

## Narrow Parking Strip Trees

### Mountain Mahogany
*Cercocarpus montanus*

- **Notes:** Has small flowers with no petals. Typically doesn’t require supplemental nitrogen fertilizers. Smaller than the Curlleaf variety.
- **Leaves:** Broad, evergreen leaves, with serrated edges.
- **Size:** 20h x 15w
- **Growth Rate:** Medium
- **Shape:** Irregular
- **Zone:** 3-8
- **Tolerance**
  - Alkaline: High
  - Salt: Med
  - Drought: High

### Mountain Mahogany, curlleaf
*Cercocarpus ledifolius*

- **Notes:** Has small flowers with no petals. Flowers in late spring to early summer. Great for water efficient landscapes.
- **Leaves:** Long, evergreen leaves, edges are rolled under, leathery.
- **Size:** 20h x 30w
- **Growth Rate:** Medium
- **Shape:** Irregular
- **Zone:** 3-8
- **Tolerance**
  - Alkaline: High
  - Salt: Med
  - Drought: High

### Oak, Gambel
*Quercus gambelli*

- **Notes:** Can be used for screening. Great for landscapes due to low water requirements and few pest problems. Requires full sun.
- **Leaves:** Dark green, lobed, orange/red/yellow fall color.
- **Size:** 20h x 15w
- **Growth Rate:** Slow
- **Shape:** Rounded
- **Zone:** 4-8
- **Tolerance**
  - Alkaline: High
  - Salt: Med
  - Drought: High

### Osage-orange
*Maclura pomifera*

- **Notes:** Only female trees produce fruit. Fruits are large and softball sized. Also commonly known as the hedge apple.
- **Leaves:** Oblong, dark green, yellow fall color.
- **Size:** 25h x 25w
- **Growth Rate:** Medium
- **Shape:** Rounded
- **Zone:** 4-9
- **Tolerance**
  - Alkaline: High
  - Salt: Med
  - Drought: High

### Pine, Bristlecone
*Pinus longaeva*

- **Notes:** Twisted branches provide winter interest. Shallow root system makes them susceptible to root rot in a garden setting.
- **Leaves:** Dark green, evergreen needles.
- **Size:** 20h x 25w
- **Growth Rate:** Slow
- **Shape:** Irregular
- **Zone:** 5-7
- **Tolerance**
  - Alkaline: High
  - Salt: High
  - Drought: High

### Pine, Pinyon
*Pinus edulis*

- **Notes:** Produces edible pine nuts after 15 years of age. Can tolerate a wide variety of soil conditions except wet soils.
- **Leaves:** Evergreen needles, bundles of two.
- **Size:** 20h x 25w
- **Growth Rate:** Slow
- **Shape:** Rounded
- **Zone:** 5-9
- **Tolerance**
  - Alkaline: High
  - Salt: Med
  - Drought: High
# Narrow Parking Strip Trees

**Smoketree, American**  
*Cotinus obovatus*

| Notes: | Flower clusters resemble pink puffs of smoke. Adaptable to many adverse soil conditions. Prefers dry to moist, well drained soils. |
| Leaves: | Blue-green, oval, yellow/red/orange fall color. |
| Size: | 20h x 20w |
| Shape: | Rounded |
| Growth Rate: | Medium |
| Zone: | 4-8 |
| Alkaline: | High |
| Salt: | Med |
| Drought: | High |

**Native to Utah:**  
**Showy Flowers:**  
**Narrow Parking Strips:**
